Colorado School of Mines

The Department of Chemistry and Geochemistry invites applications for up to two anticipated tenure-track appointments in the general area of Materials and Energy (e.g., electronic materials, fuel cells, electrochemistry, photovoltaics, electroceramics, etc.) to begin Fall 2007. It is anticipated that these positions will be at the Assistant or Associate Professor level, but candidates with appropriate experience may be considered at the Full Professor level. Teaching contributions are expected in the inorganic chemistry curriculum, but other areas will be considered. A Ph.D. in Chemistry or closely-related field is required by time of appointment. Post-doctoral experience is preferred. The Department offers ACS-approved B.S. chemistry degrees, as well as M.S. and Ph.D. degrees. Successful applicants must demonstrate the potential to develop or maintain a sustainable externally-funded research program and a commitment to undergraduate and graduate education. Applicants must submit a letter addressing qualifications, identify the rank applied for, research plans, and teaching philosophy. Applicants must also submit a curriculum vita, official graduate transcripts, and arrange for three letters of recommendation. Senior-level applicants do not need to send letters of recommendation at this time. Please send application materials to: Colorado School of Mines, Human Resources Office, Search #06-031070 1500 Illinois Street, Golden, CO 80401, Fax: (303) 384-2025. The complete job announcement with application instructions can be found at: http://www.is.mines.edu/hr/Faculty_Jobs.shtm.

Review of applications will begin December 15, but applications will be accepted after this date. Information about the Department can be found at http://www.mines.edu/academic/chemistry/.
