ANNOUNCEMENT OF FACULTY POSITION

CHEMISTRY (Biochemistry)

Department of Chemistry and Physics

POSITION AVAILABLE

Tenure-track position at rank of Assistant Professor

APPOINTMENT DATE

1 September 2007

QUALIFICATIONS

Ph.D. in Chemistry (Biochemistry specialization) and teaching experience preferred

APPLICATIONS

Send letter of interest, CV, transcripts and three letters of reference to:

Dr. Ronald T. Criasio, Chairperson
Department of Chemistry and Physics
Kean University
1000 Morris Avenue
Union, New Jersey 07083

OVERVIEW OF KEAN UNIVERSITY

Founded in 1855, Kean University has grown to become one of New Jersey’s largest institutions of higher learning. In 1958, Kean moved from Newark to Union and currently occupies over 150 acres in Union and Hillside Townships. Kean was granted university status on September 26, 1997. While maintaining its significant role in the training of teachers, Kean has become a comprehensive institution offering 48 undergraduate and 28 graduate degree programs serving some 13,000 students. Across four undergraduate colleges and the Nathan Weiss Graduate College, Kean’s academic programs cover an exceptional range of disciplines.

Kean is a metropolitan, comprehensive, interactive, teaching university. A campus dedicated to the pursuit of excellence in higher education, Kean University supports a student-centered learning environment that nurtures the development of the whole student for rewarding careers, lifelong learning and fulfilling lives in a global society. It maintains a commitment to excellence and equity in enrollment, instruction and administration.

The Department of Chemistry/Physics has four major options from which students may choose. The American Chemistry Society (ACS) has accredited the major in Chemistry-Expanded Option. This program of study prepares students for graduate school and the best career opportunities available in chemistry and related fields. The General Option in Chemistry is available for those who seek a solid foundation in chemistry and intend to enter industry. For students planning to enter medicine, dentistry, podiatry or veterinary medicine there is the Pre-Professional Chemistry Option. The Teacher Certification Option prepares students to teach Chemistry, and the Physical Sciences in grades K through 12. This curriculum is jointly managed by the Department and the College of Education.
